

Do I Really Need A Registered Agent?

All business entities are required to appoint and maintain a registered agent.

Can't I just do it myself?

You must be available from 8am to 5pm Monday thru Friday. That means no off-site lunches & no vacations!

You must know where, when and what forms need to be filed to maintain your entity's good standing.

Your identity is more easily stolen, as your personal information is made public on governmental websites.

What if I make a mistake or miss an important deadline?

Your company could lose its good standing, meaning you can't defend your company in court.

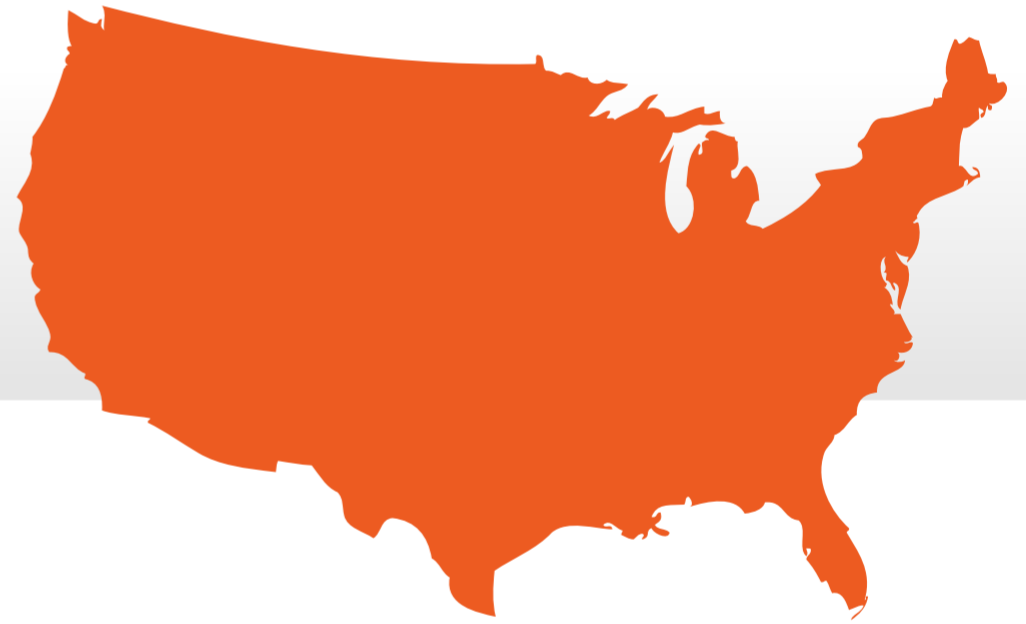

Contracts can be voided.

Your company's name could become available for competitors to claim.

Paracorp has you covered in all 50 states and Washington DC.

What are the benefits?

Take the worry and burden out of acting as your own registered agent. Naming Paracorp as your registered agent means:

- You won't get served in front of employees, family or clients
- Important docs will be forwarded to you in an expeditious manner
- You'll receive prompt notification when service has been received
- Annual report filing reminders sent to you approximately 45 days before the deadline
- Our trained staff will perform annual reviews of your entity's status

How much will all that cost me?

.48 cents a day.
Less than your daily cup of Joe!

Registered agent services made simple.

Protect yourself and your business entity!
